He says if anyone else had hitched a horse that way he would have called him a fool.

San Francisco, April 2.—This afternoon a large number of unemployed men assembled in front of City Hall and organized what they termed an Industrial Army. Lert agreed to give the army \$25 from the contingent fund to pay their way to Oakland.

## A KEELEY GRADUATE

Relates His Experience at the Carson Institute.

To the Editor S. F. Chronicle:—Will you permit me through the columns of your paper to express the gratitude I feel toward Dr. Keeley and his representatives in Nevada for the great good they have done me. I am prompted to this course by the hope that others may follow my example. Some weeks ago I took the 6 p. m. overland train, secured a berth in the sleeper, and started on my pilgrimage of reform. I arrived in Carson about 9 o'clock on the following morning, after a good night's rest. The motion of the cars seemed to soothe and quiet my nerves and lulled me to sleep. It was my first visit and I was surprised to find it one of the most beautiful towns I have ever seen. Its public buildings, in many instances, surpass those of San Francisco, and certainly average better. The Capitol, Postoffice and United States Mint are beautiful pieces of architecture.

The town nestles at the base of the Sierra Nevada mountains, at a distance of fourteen miles by stage from Lake Tahoe. It is like a fairy city, with its background of snow-capped mountains, and lies at an elevation of 4600 feet above the sea. The air is dry and invigorating, the water unsurpassed for purity, the surrounding country mountainous and picturesque. One of the most delightful warm swimming baths in the world is here. The wonderful footprints of the prehistoric man, that have excited the wonder of the sages of the world, are near. The great mills that have reduced the ores of the Comstock are near by. The Comstock is only fourteen miles distant. To the wonderful Sierrita springs, where another great mineral ledge is in process of formation, is but a short ride. The country abounds in the beautiful and wonderful that charms the stranger. The wisdom of selecting Carson for the Institute is shown by the results. Not a patient has relapsed.

Patients from California and different parts of Nevada have been amazed at the rapidity of their cure. The kindness and hospitality of the citizens is proverbial, and makes "good-by" reluctantly said. All of these attractions and change of climate have lent great assistance to the remedies in restoring the nervous system. To this I can bear personal testimony. I was met, on the arrival of the train, by the urbane secretary of the company and conducted to the institute. A thorough examination was made, as is done in all cases here, and I commenced the course of treatment. In three days all desire for liquor had left me, my appetite was ferocious and my sleep was as perfect as a child's. The consideration and kindly sympathy of the other patients made me feel at home and with friends. The time flew with lightning rapidity, and I could scarcely realize that I had spent a month in Carson, when my cure was pronounced perfect. In conclusion, I will say that I had drunk for thirty years, with all the varying degrees of excess that usually attends a drinking man. Respectfully yours,

A. C. W.

San Francisco, March 31st.

## Contradicted.

Fresno, Cal., April 3.—The defense in the Heath case to-day put E. J. Boland, formerly husband of Mrs. Cora Palmer, on the stand, and he testified that he was not in Fresno from the time he was granted a divorce, on July 29, 1892, until November or December, during which time he was in Bakerfield working on the Californian. Therefore Mrs. Palmer could not have brought him to Fresno on the night of August 28th.

Attorney Johnson asked witness if he were not at the residence of Mrs. Dwell and Mrs. Palmer during the peach-picking season. He replied in the negative.

If the defense do not recall Mrs. Palmer it will compete the case this afternoon.
